After consulting with the Director of the MPO at the GRPC we believe we would have a good chance of receiving funding for lighting the interchange through the Transportation Improvement Program and we could possibly get funding for the multi-modal path to connect the Southside to the Northside of Diamondhead for bicycles, carts and pedestrians through the Transportation Alternative Program. The deadline for submission is May 13th. If you are interested in these projects, we will begin developing the applications.

Grants:

We had a site visit for the Safe Routes to School Grant today. The award will be made in April. I am cautiously optimistic that we will be awarded. We are moving forward on the

Infrastructure improvements update:

Awaiting signed easements for Live Oak Dr. Phase II and the new Commercial Drive to go forward with final engineering plans and advertisement for construction.

Training:

We have a representative of Tyler Technologies here this week conducting training on our Incode software. It has been well worth the effort.
